

Saginaw-Tittabawassee Rivers Contamination CAG
Full CAG Meeting
Saginaw Valley State University – Curtiss Hall Seminar Rooms D & E
Monday, March 21, 2011
6:00 PM – 9:00 PM

Draft Agenda as of 3/17/11

- 6:00 PM Introductions
 Agenda Review
 Check in with public
 Review February Meeting Summary
- 6:15 PM Updates and Administration
- Introduce new members
 - Update on CAG incorporation and Funding
 - Planning for special meetings on dioxin issues (the leadership team is working to line up guest speakers)
- 7:00 PM Technical Updates
- Exposure controls at floodplain properties
 - Island MM
- 7:15 PM Contaminated Sediments Video
- This EPA video provides a general overview of how EPA approaches contaminated sediment cleanup. We will view the video and have an opportunity to ask questions.
- 7:30 PM Background on Segment 1
- Segment 1 is the three-mile stretch of the Tittabawassee River adjacent to Dow's Midland plant. This presentation will: recap cleanup work that has been done in Segment1, and discuss what was learned from these projects; summarize the investigations that have been conducted, and the results; discuss the bases for additional cleanup, and how specific areas will be targeted; and begin to discuss cleanup technologies that are relevant to Segment 1.
- 8:30 PM Public comment
- 8:50 PM Wrapup
- 9:00 PM Adjourn

Our Groundrules:

In conducting the work of the CAG, members will:

- work cooperatively with each other, supporting agencies, and other stakeholders,
- be respectful of all participants,
- approach all issues and viewpoints with an open mind,
- work to ensure that their concerns and issues are articulated in a way that all stakeholders can understand,
- seek common ground wherever possible, and present and respect minority opinions where they exist.
